MEETING DATE SET FOR
AG-CHEM VOTE ON ACQUISITION BY AGCO

Duluth, GA, and Minnetonka, MN, March 30, 2001 - AGCO Corporation, Inc. (NYSE: AG) and Ag-Chem Equipment Co., Inc. (Nasdaq: AGCH), announced today that the SEC review process in connection with the Proxy Statement/Prospectus for the proposed acquisition by AGCO of Ag-Chem was complete and that copies of the Proxy Statement/Prospectus were being mailed to Ag-Chem shareholders. Ag-Chem has called a special meeting of shareholders for April 16, 2001 to consider and vote upon the acquisition. If the transaction is approved, Ag-Chem shareholders will receive from AGCO a combination of cash and stock as described in the Proxy Statement/Prospectus. A copy of the Proxy Statement/Prospectus can be obtained by mail at prescribed rates from the Public Reference Section of the SEC, 450 Fifth Street, N.W., Washington, D.C. 20549 or by calling the SEC at 1-800-SEC-0330. The SEC also maintains a website that contains reports, proxy statements and other information regarding AGCO and Ag-Chem. The address of the SEC website is <http://www.sec.gov>.

AGCO and Ag-Chem stated that, although they intend to complete the acquisition as soon after the special meeting as practicable, there can be no assurance as to whether or when the acquisition would be completed.

AGCO manufactures and distributes agricultural equipment, including tractors, combines, hay tools, sprayers, forage equipment and implements, and related replacement parts throughout the world. AGCO's products are widely recognized in the agricultural equipment industry and are marketed under numerous brand names. The primary focus of Ag-Chem is agricultural machinery designed for the application of fertilizer and chemicals to farm fields. Ag-Chem is also the leading provider of unique site-specific technology for agricultural management through a division known as SOILTEQ. This acquisition will give AGCO a strong position in self-propelled equipment for application of fertilizers and farm chemicals. Additionally, it will

provide market access to Ag-Chem's advanced crop management system, which can be integrated with all users and brands.
